3+1 Dual Degree from **Illinois Tech, Chicago, USA**

ILLINOIS TECH

Inclass Curriculum

Build Your Future with Industry-Ready Curriculum

From fundamentals to applied AI, a curriculum built for the next generation of leaders.

Year 1 Learn the Fundamentals of DS & AI

Foundational Courses

- Linear Algebra
- Probability & Statistics
- Computer Fundamentals
- Programming Fundamentals - Python & R
- Coding with Java

Artificial Intelligence

- The Origins of AI
- Building and Deploying AI Agents
- Transformation through AI

Data Science

- Introduction to Data Science
- Data Driven Storytelling
- Data Structures
- Unsupervised Machine Learning

Leadership Courses

- The Art of Communication & Stakeholder Management

Year 2 Master DS & AI for Career Excellence

Foundational Courses

- Statistical Methods for Data Science
- Optimization Theory

Artificial Intelligence

- Transformation through AI (Healthcare & Education)
- Building Products and Designing Recommendations
- Data Architecture
- Sociology of AI
- Advanced Machine Learning & Deep Learning

Data Science

- Data Wrangling & EDA
- Supervised Machine Learning
- Database Management
- Signals & Systems
- Data Engineering

Year 3 Become an AI Leader

Foundational Courses

- Career Prep & Industry Engagement

Artificial Intelligence

- Natural Language Processing
- AI in the Cloud
- Computer Vision

Data Science

- Reinforcement Learning
- MLOps & AI Systems
- Big Data & Cloud Computing

Leadership Courses

- Data Science & AI in Finance
- AI in Leadership & Strategic Decision-Making
- Data Science in Public Policy
- AI Ethics and Policy

Year 4 Get Ready for the Real World

Industry Training

- Students spend a year gaining hands-on experience, either through a full-time internship or project with leading firms. (Big Tech, Data Science, or AI Startups)
- Students also have the option to build and scale their own AI venture with mentorship and support from experienced professionals.
- Eligible students have the opportunity to spend a full academic year at Illinois Institute of Technology, Chicago, and graduate with a Bachelor of Science in Artificial Intelligence from Illinois Tech, USA.

Curriculum designed in collaboration with experts from

Google

Microsoft

OLA KRUTRIM

pwc

Outclass Curriculum

Learn by *Building*

In addition to the Inclass Curriculum, students step outside the classroom to **apply their learning** through hands-on **industry projects.** The **Outclass Curriculum** pushes students to **design, test,** and **launch AI systems** that solve industry challenges.

Watch Video

Year 1

Chatbot Building: Build a **Chatbot** using **Chat GPT** and other No Code tools. Some use cases include

- AI Application in Industry
- Customer support chatbot
- Mental health support chatbot

Industry Exposure: Solve an industry relevant problem statement using **Unsupervised Learning**. Some use cases include

- Customer Segmentation for Credit Card Companies using K means
- Anomaly Detection in financial transactions using One-class SVM
- Customer Purchase Behaviour Clustering using RFM

Year 2

Tool Development: Develop an **Autonomous AI** agent that automates a **critical function** within an organization. Examples include

- AI-powered Ad creative generator for marketing teams
- AI-driven quality control system for manufacturing
- AI tool automating customer service for large enterprises

Industry Exposure: Solve an industry relevant problem statement using **Supervised Learning** and **Reinforcement Learning** techniques. Some use cases include

- Sales forecasting using Time Series
- Student performance prediction using tree based algorithms
- Portfolio optimisation with Reinforcement Learning

Year 3

RAG Building: Students must design, build, and deploy an **AI-powered Product** that solves a real-world problem using **Retrieval Augmented Generation (RAG)** and **Generative AI**. The project must not stop at a prototype: it must be validated in the market with at least 5 paying clients OR **INR 5 lakhs** in revenue.

- Finance RAG Assistant
- Medical RAG system
- Educational FAQ Assistant
- Legal Document Summarizer

Year 4

Deep Industry Immersion: Students spend their final year working alongside leading **Tech Companies, AI Start-ups**, or with sector leaders in areas like **IoT** and **Autonomous Systems.**

Venture building: For those inclined, the final year is an **Incubator** to **Design**, **Test**, and Launch their own **AI-driven Businesses.**

Spend a Year at Illinois Tech: Eligible students have the option to study at **Illinois Tech** for their **4th Year** on the **Chicago** campus and graduate with a Bachelor of Science in AI, with placement opportunities in the USA.

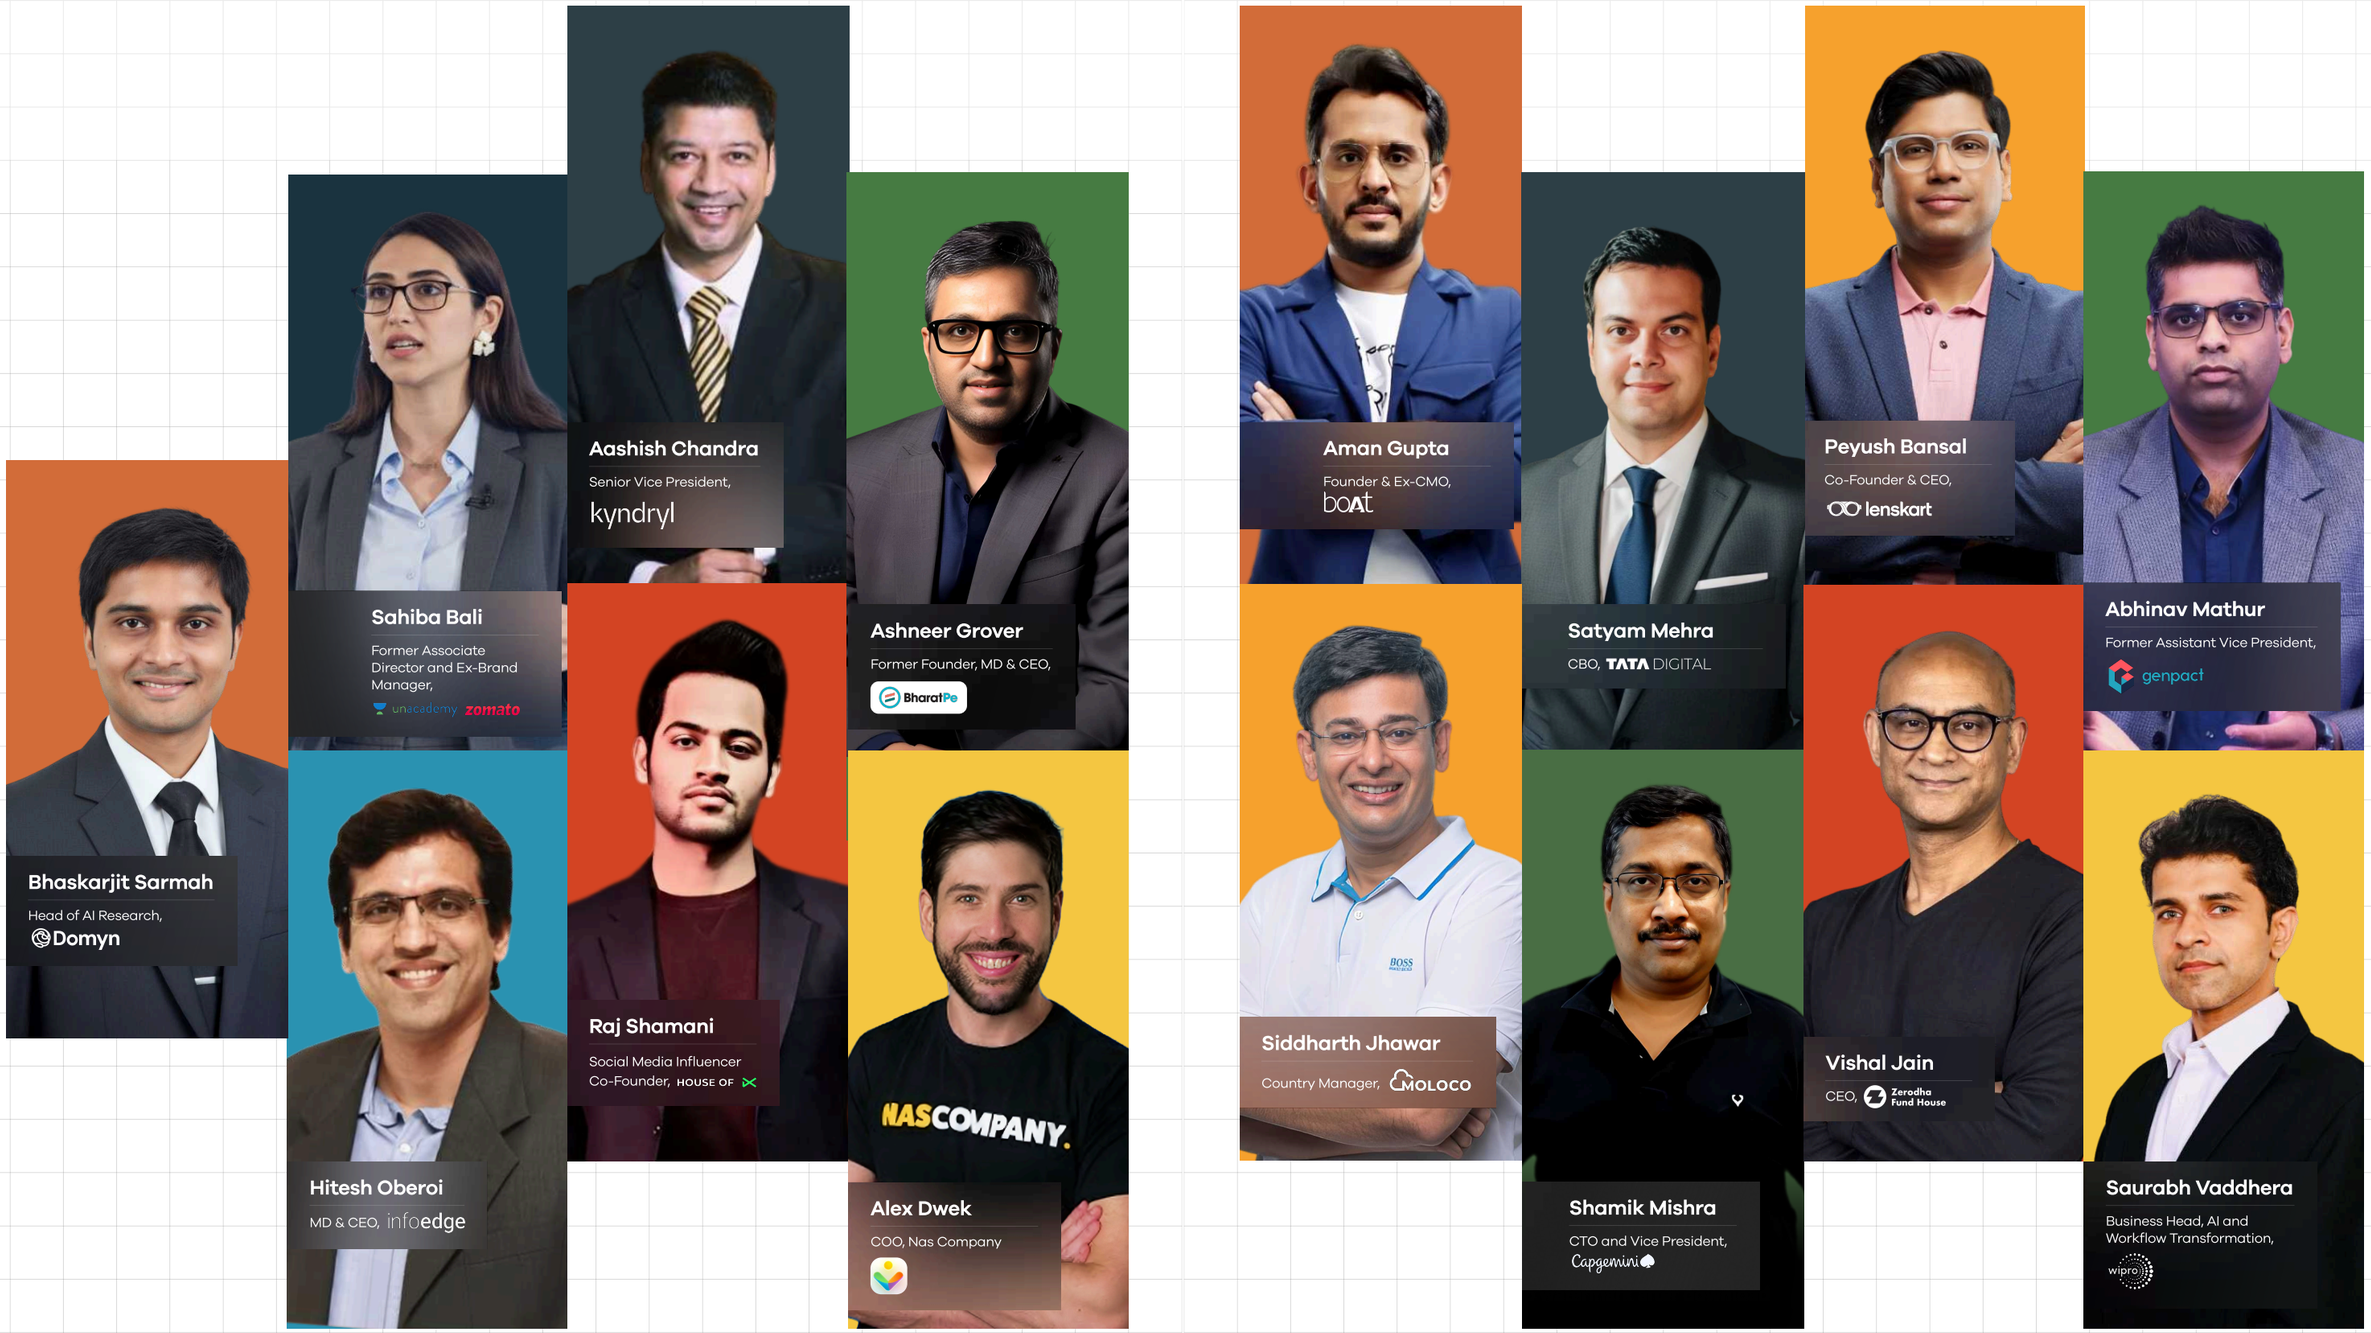
Icons at Ma sters' Union



Graduate with

Global Credentials

Pursue a prestigious Degree with Indian or Global recognition

India Track

- Spend **3 years at Masters' Union** followed by **one year industry immersion** in India.
- **Placement opportunities** at marquee recruiters like **Microsoft**, **Google**, and **Krutrim**.
- Graduate from **Masters' Union** in **India**

Global Track

- Spend 3 years in India followed by **4th year at Illinois Tech, Chicago**.
- Unlock stellar **placement opportunities and higher education** options in the US.
- Graduate from **Illinois Tech, ranked #1 in Illinois** and **#20 in the US** by New York Times.

Explore the World as **Your Classroom**

▶ Scan to watch how students experienced GIP across regions

▶ GIP Japan ▶ GIP Singapore ▶ GIP Europe ▶ GIP UAE

Expand Horizons through **Global Immersion Programme**

Travel to iconic destinations and engage with their **Business Landscapes, Cultural Networks,** and **Technology-driven Innovation** hubs.

The Countries covered in the Programme

Analytics and Innovation in Europe

Explore Europe's **Innovation Hubs**, from **Philips R&D** to **Station F**, and see how Analytics and AI are driving Sustainable Industries.

Tech Adventures in Japan

Explore Japan's cutting-edge Technology and gain insights from the Industry Leaders at top companies like **Nissan** and **Rakuten**.

AI and Emerging Tech in Singapore

Engage with leading firms like **Temasek**, **Singtel** and **Sanofi** to see how AI is transforming Digital Infrastructure, Cybersecurity and Healthcare.

Tech Giants in Silicon Valley, USA

Step into the epicenter of Tech Innovation. Visit leading companies like **Google, Apple,** and **Netflix**, and experience the future of Technology.

Automotive Excellence in Germany

Dive into the heart of Germany's **automobile legacy**. Witness the Innovation behind Global brands like **BMW, Audi**, and **Mercedes.**

Technology & Innovation in Dubai, UAE

Discover Dubai's rise as a **Global hub** for **AI** and data-driven innovation. Visit the Dubai Future Foundation and **Dubai Internet City** to see AI, and Smart City solutions in action.

Meet the Peers

Arushi Ahuja
Kunskapsskolan, Gurugram

A **Next Genius Scholar** and **Top 25** finalist in the **Viksit Bharat Challenge**, Arushi has presented her work on **Quantum Computing** at CodeVerse with international participants. She has built **AI Voice Agents** for Bajaj Insurance alongside a medical prescription transcriber model trained on over **10,000+** prescriptions.

Hiteshree Sharma
Presidium School, Gurugram

A **District-Level Table Tennis medalist** and trained tabla player, Hiteshree scored above the **90th percentile** in **CUET** and won school **excellence awards 7 years** in a row. She's been a professional Kathak dancer for **12+ years**, performing on major stages across India.

Pranav Verma
Delhi Public School, Panipat

With a top **10,000** rank in **JEE Advanced** with **95+ percentile,** Pranav's journey reflects a consistent record of excellence across academics and sports. At DPS Panipat, he excelled in chess, table tennis, swimming, and **represented** his **district in cricket.**

Himani Gurwani
Royal Gondwana Public School, Nagpur

A **National-Level** Olympiad winner and a **92% scorer** in her Grade 10 Boards, Himani has demonstrated consistent academic excellence. She brings an **entrepreneurial** mindset and is passionate about **technology-driven** ventures.

Ishant Rajput
Mamta Modern Senior Secondary School, Delhi

A **State-Level** winner in Creative Slogan Writing, Ishant balances creativity with a **problem-solving** mindset. An **83-percentile scorer** in **JEE**, he is deeply interested in **AI tools** that tackle complex challenges with efficient solutions.

Student Life

Career and Cultural Clubs

- Over **20+ clubs** fostering skills, creativity, and networking.
- **Career-oriented clubs** (e.g. Data Science, Consulting) connect students with **industry mentors** and peers.
- **Cultural Clubs** are a blend of cultural and recreational activities like **dance, dramatics, music, debating** and **sports,** that foster holistic development.

Hostel Facilities

- **Fully furnished**, comfortable rooms for a home-like experience.
- **High-speed WiFi** for uninterrupted learning and collaboration.
- On-campus **gym, cafeteria,** and **recreation areas** to balance work and wellness.
- **Quiet study zones** and **collaborative spaces** promote focus and teamwork.

Campus and Location Edge

- Located in a **vibrant tech district** with top recruiters such as **Microsoft**, **Google**, and **Amazon** just a short car ride away, Masters' Union boasts of a unique locale.
- Immerse in **PwC X MU AI Lab** with access to cutting edge research and AI technology.

Student life at **Masters' Union** is vibrant, dynamic, and full of opportunities for personal and professional growth. From career-oriented clubs to cultural events, **every aspect of campus life prepares you to succeed.**

Visit our UG students' Instagram page

Your **Path** *to* **Excellence**

Getting into the **UG Programme in Data Science and AI** is your first step toward building an impactful career. Our holistic admissions process evaluates your **academic potential, creativity, and passion for technology.**

Apply Now

School of Technology

STEP 01

Complete the Application Form

Students will be required to submit an application form with details of their academic qualifications and **JEE score/SAT score** along with **extra-curricular activities.**

STEP 02

Submit the Video Essay

Students will then receive an invitation to submit a short **2-minute video essay** describing their interest in technology, their past experiences in building, and why they want to be a part of the UG Programme in **Data Science and AI.** Students will have **~7 days** to complete this essay.

STEP 03

Take the Aptitude Test

After completing the video application, students will be prompted to either upload their **JEE Advanced admit card** or **SAT scores**, or opt to take the **Masters' Union Scholarship Aptitude Test (MUSAT).** Those choosing MUSAT will have a **20-day** window to complete the test.

STEP 04

Admission Decision

Once shortlisted applicants have submitted their application and aptitude scores, the admissions team will share the final decision. Applicants may receive one of the following outcomes:

Accepted: Applicants offered admission will receive their decision along with the programme's financial structure. They will have 7–21 days to confirm their admission.

Waitlisted: Admission depends on available spots in the cohort. The admissions committee reviews and updates decisions on an ongoing basis.

Rejected: Applicants who are not selected can apply again in the next academic year.

Several journeys await, which path will you take?
