## School of CS & AI

An Industry-Led UG Program by IIIT Hyderabad Alumni & Backed by Y Combinator, for the **aspiring software engineers** of India!

**Scan to take our**

**College’s Campus Tour**

# India's First **AI-Native** CS UG Program

Graduate not as a fresher, but as a Senior Software Engineer with **18 months** of real industry experience.

**3,000+** Alumni

**25+ LPA** Avg. Salary

**18 Months** Paid Internships

# 4 Year UG Program in **CS & AI**

Most engineering colleges are designed to help you pass exams. We are designed to help you lead the industry.

While others add AI as an elective, we have built India's first undergraduate program with AI as the nucleus. **Our curriculum is engineered for one singular goal: making you industry-dominant from ⚡ Day One.**

# The **AI Revolution** Is Here.
# Traditional education is not keeping up!

**85 million jobs** will be displaced by AI in the next 3 years. Yet, **90% of engineering** graduates lack fundamental AI literacy.

The industry is desperate for talent - offering **₹40L+ packages** - but they aren't looking for degree holders. They are looking for problem solvers.

**The gap isn't in opportunity. It's in education.**

# Who we are.

Google

Y Combinator

Microsoft

Apple

INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY
HYDERABAD

we are proud to be backed by Ycombinator, which gives us access to-

# Faculty who are **IIIT-H Alumni**

Founder & Director

## Manas Kumar Verma

India's top 15 competitive programmer, youngest intern at Directi. Mentor who has taught and guided over 50,000 learners so far in their careers. Previously a Quant Trader at Alphagrep Singapore.

Head of Teaching

## Swapnil Daga

Guided over 50,000+ learners in their career so far. Right after college, Swapnil has cracked Google London & then moved on to Apple India. Currently leads teaching infra at Tensor School.

AI Lead

## Nikita Agarwal

Previously at Microsoft as Data Scientist and Indeed as a senior software engineer. Subject matter expert on AI & ML - Gold Medalist in Meta Hackercup & built frontier products like Flames.Blue.

CTO

## Nalin Abrol

Before joining Tensor School as a CTO, Nalin scaled tech-infra for two YCombinator backed startups - Plivo & AlgoUniversity. Built some of the fastest growing products like AlgoPath.ai & Flames.Blue.

Directi Intelligent People. Uncommon Ideas. AlphaGrep Google Apple Microsoft indeed plivo the JOBOVERFLOW by AlgoUniversity

# Meet our Team 🔥

Chief of Strategy

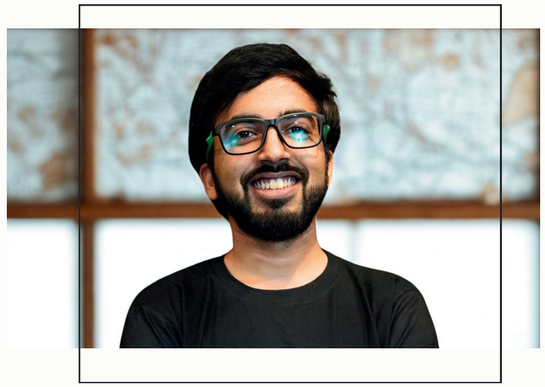
**Naman Jain**

CS engineer by education, earlier placed as a Software Engineer at ByteDance, Singapore. Built & scaled businesses for multi mil $ startups like AlgoUniversity - backed by YCombinator.

Chief of Brand & Growth

**Sarigama Yerra**

CS & Research grad from IIIT-H. Built & scaled India's largest community for tech professionals thru flagship initiatives like IITBro, TalentClub, and AlgoUniversity's Hiring Tournament (AUHT).



Admissions Head

**Apaar Agrawal**

Previously at Slice as Data Engineer and is a graduate from IIIT-H. He leads the Admissions and Student Success operations, ensuring a smooth and transparent process for every learner.

Director, Research

**Vivek Verma**

Dr. Vivek Verma holds a Ph.D. from Florida International University (FIU), USA, and brings deep expertise in business and product innovation.

## Demand for AI professionals in India projected to touch one million by 2026: Report

ANI - Last Updated: Jun 01, 2025, 08:27:43 AM IST

Preferred on Google | FOLLOW US | SHARE | FONT SIZE | SAVE | PRINT | COMMENT

**Synopsis**

India's tech education landscape is increasingly embracing interdisciplinary and industry-integrated learning to nurture a new generation of engineers who can code, create, collaborate, and lead innovation. The transition from STEM (Science, Technology, Engineering, Mathematics) to STEAM, adding Arts to the mix, is gaining ground, blending technical knowledge with design thinking, communication, psychology, law, and business.

## India to need 1 million AI professionals by 2026, says report amid tech education overhaul

ANI / Updated: Jun 02, 2025, 08:04 IST

Share | AA

India is experiencing a surge in demand for AI professionals, projected to reach one million by 2026, driving significant changes in engineering education. The rise in B. Tech seats, particularly in computer science and AI-related fields, reflects this demand.

NEW DELHI: India is poised to see a massive surge in demand for Artificial Intelligence (AI) professionals, with projections estimating the need for one million skilled individuals by 2026, according to the report India's AI

# The Tensor Advantage

We don't teach Computer Science with AI as specialiation. We teach AI as fundamental. 🥇

**Built by Industry, For Industry** Curriculum co-designed by engineers from Google, Microsoft, and ServiceNow. **Taught by those who built Facebook Messenger, Amazon AI, and systems you use daily.**

# Graduate with **18+ Months** of Work-ex

While Others Start as Freshers, You Start Where They Reach After 3 Years ⚡

Tensor School students start work as early as **2nd year.** Apart from the clear advantage of work experience, students start earning stipend early on and get exposed to real world.

**By the time they graduate, students will make their FEE back in full and maybe even come out net +ve**
**- how cool is that!?**

# 4 Year **Residential** UG Program

Tensor School is fully residential with a beautiful 100 acre campus inside global tech park in the silicon valley of India - **Bengaluru.**

We believe culture is a product of environment. Students don't just visit the industry; they live next door to their future employers, mentors, and investors.

**India's First 100-Acre Residential Campus Inside a Global Tech Park**

# AI-Native. Industry-Built ⚡

## Built by Industry, For Industry

Curriculum co-designed by engineers from Google, Microsoft, and ServiceNow. Taught by those who built Facebook Messenger, Amazon AI, and systems you use daily.

## 1:1 Mentorship from Senior Engineers

Students get presonal attention with mentors who are software engineer professionals working in top companies & are updated with new technologies and current market requirements unlike professors.

## Elite Selection, Personal Attention

Only 300 students. 7 admission pathways. Monthly 1:1 mentorship with FAANG engineers. A MacBook Pro for every student.

continued --->

# Macbook for Everyone!

Your Personal AI Lab. From Day One.

Every Tensor School student receives a high-performance **MacBook Pro**. Not as a perk, but as an essential tool.

Industry-standard. Powerful enough for deep learning. Unix-based for real deployment. The same machine professionals use.

# Why Tensor School stands out ⚡

## 18 Months Work Experience during B.Tech

Out of the 4 years of their B.Tech journey, students spend 18 months gaining real industry exposure through paid internships, live projects, and client assignments graduating not as freshers, but as experienced engineers with job-ready portfolios.

## Paid Internships from 2nd year

Every student begins earning real-world experience (and income) from the 2nd year itself through guaranteed paid internships ensuring continuous hands-on learning, stronger resumes, and the confidence that comes only from building for real companies.

## 105+ On-Campus Companies

With an average package of ₹25 LPA and a strong network of 5000+ recruiters, Tensor School's dedicated placement cell ensures students don't just get interviews - they get offers. From startups to FAANG-level companies, our network hires directly from your campus.

continued --->

# Tensor vs Traditional

| Feature | Tensor School | Traditional College |
|---|---|---|
| **Curriculum** | AI-native, Industry-oriented and Latest technologies | Theory-heavy, Outdated |
| **Faculty** | Engineers from Google, Apple & other top companies | Academic Professors |
| **Selection** | 360 degree admission criteria with 7 different modes of admission for global admissions | Thousands, Rank-based |
| **Equipment** | Every Tensor student gets a MacBook Pro | Bring Your Own |
| **Experience** | 18 Months Paid Internship | Optional / None |
| **Mentorship** | Monthly 1:1 with Engineers from Google, Apple & other top companies | Large Classes |
| **Graduation** | With 18+ months of work experience and skillset equivalent to a senior software engineer | Fresher Level |

# Industry Ready Curriculum ⚡

## Year 1
## The Foundation

Year 1 builds your core foundation. We skip the trends to master first principles: Data Structures, Algorithms, and Mathematics for AI. You won't just learn to write code; you will learn the logic to solve the industry's hardest problems.

## Year 2
## Application

Year 2 shifts from learning to building. Apply your skills to real-world problems. Deploy production-grade apps, compete in global hackathons, and secure international research internships. Stop studying solutions; start shipping them.

## Year 3
## Specialize

Year 3 defines your legacy. Select your elite track—AI Research, Quantitative Finance, or Systems Engineering—and deep dive with industry mentors. You won't be a generalist; you will be a domain expert guided by the builders of the systems you study.

## Year 4
## Industry Immersion

The final validation. Step into full-scale commercial roles with up to 18 months of paid experience. Graduate with a Senior Engineer's resume, a Pre-Placement Offer (PPO), and a career trajectory years ahead of your peers.

# Results.

we are proud that our student are **placed & working in companies like-**

# Placements of students trained by our Faculty 🔥

CTC = 1.2 Crore

## Lakshman Kishore R

Lakshman Kishore R secured a 1.2 Cr offer at IMC Trading! Guided by Manas sir's HFT expertise, he refined his strategy and decoded complex interview expectations to ace the process.

Stipend = **2L / month**

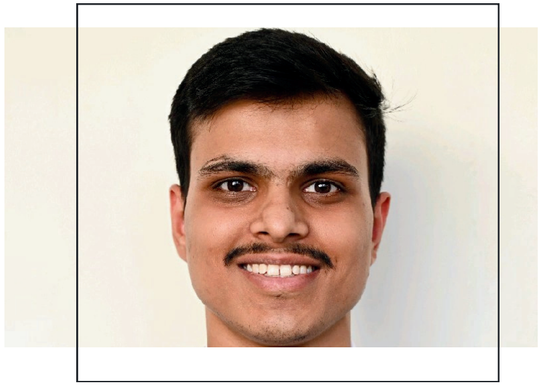
## Aiza Siddique

Aiza secured a Sprinklr internship with a market-leading 2L/month stipend! Her focus on practical projects and real-world work experience proved to be the game changer in her selection.

CTC = 53 lacs

## Darshan Arkhade

Darshan cracked Google alongside his friend Devansh Sengar! Under Swapnil sir's mentorship, his command over DSA & CP and receiving the right guidance proved instrumental in his success.



CTC = 53 lacs

## Devansh Sengar

Devansh landed his Google dream offer! His command over DSA & CP, combined with the right strategic guidance, made the difference. Huge credit to his favorite mentor, Swapnil sir.

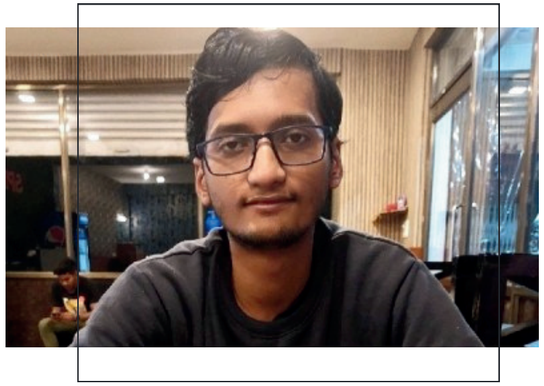
# Placements of students trained by our Faculty 🔥

CTC = 53 lacs

## B.S. Varshitha

Varshitha cleared Amazon, IBM, and Google, ultimately joining Google! The approach-first training in Graphs and DP, plus a clutch Google-specific mock, turned her prep into a top-tier career move.

Google



Stipend = 1.5L / month

## Md. Kamran

Kamran secured a prestigious Day 0 offer at D.E. Shaw! As a Codeforces Expert, his elite competitive programming skills and the high-intensity training helped him dominate one of the toughest hiring bars.

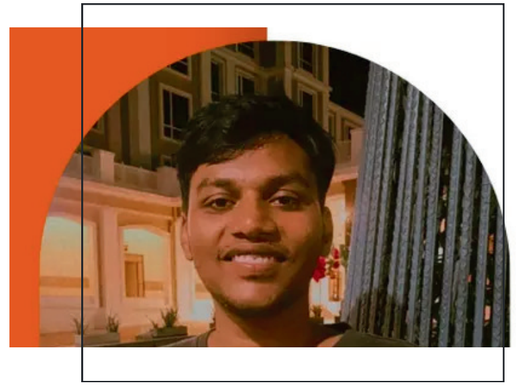
D E Shaw & Co

Stipend = 4.5L / month

## Akshat Chaudhary

Akshat secured a massive HFT offer at Ebullient Securities, boasting a 4.5L/month stipend - literally 4x that of Google! His elite technical prep and the strategic guidance helped him crush the high-stakes HFT bar.

EBULLIENT SECURITIES
TRADEWALK BROKING



CTC = 1.05 Crore

## Siddhartha V

Siddhartha V is a hard-working student with strong development skills & talent for communication. His journey was shaped by close mentorship, which helped him turn technical knowledge into a successful placement.

# Achievers Tracks

Every student cannot be good at everything, good news is he doesn't needs to be!

Introducing **Achiever's Track**, where students in smaller group are assigned a Team Captain and train with him/her to get a competitive edge in a niche skill or ambitious goal.

This model pioneered at AlgoU, has worked wonders to produce India's top results on several areas like Google Summer of Code, Quant, ACM ICPC, Facebook AI Hacker Cup, etc.

## Multiple

- **Google Summer of Code Track**
- **Facebook AI HackerCup Track**
- **Quant Prep Track**
- **ACM ICPC Track**
- **International Research Intern Track**

# Tracks are led by **subject matter experts**

## Google Summer of Code Track

- Google pays Rs 2,00,000 stipend for open source internship
- Special Track led by Satyam, past GSoC recipient
- **2024: in track of 30 people - 6 people cracked GSoC!**

**Mentor:**
Satyam Mittal
Team Lead,
**Stripe.**

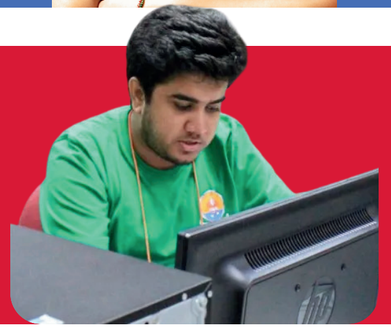
## facebook HACKERCUP

- Facebook HackerCup selects top 50 globally
- Track led by Nikita, winner of Facebook HackerCup ‘24
- **2025: 40 out of top 50 were AlgoU Hackercup Track!**

**Mentor:**
Nikita Agarwal
Data Scientist,
**Microsoft.**

## ACM ICPC Track

- Olympics for Programming highly prestigious
- Track led by Sayantan, past ACM ICPC World Finalist
- **2024: 14 people qualified for Regionals**



**Mentor:**
Sayantan Jana
Sr. SDE,
**Rubrik.**

# International Research

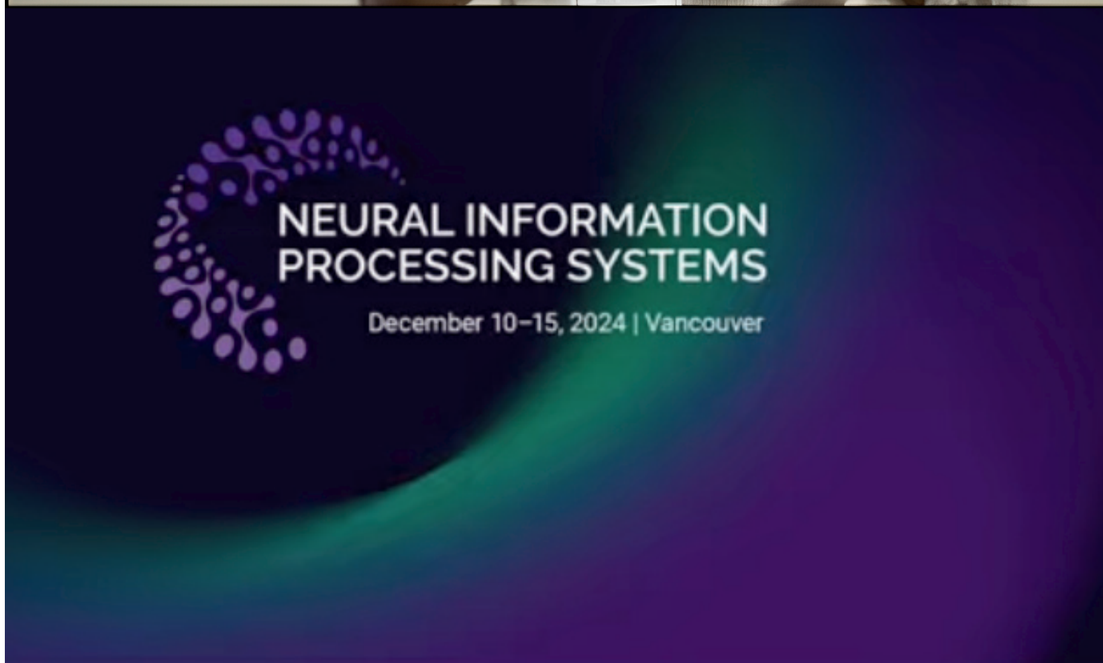
### 🌍 Global Research Opportunities (Starts Year 1)

Students begin working with international research teams and laboratories during their first two semesters. Instead of waiting for advanced years, you join active projects immediately, gaining hands-on experience in global academic environments.

### 🌍 Financial Support and Global Projects

The program includes specific grants to cover travel and research expenses for projects conducted abroad. Students work on collaborative assignments with partners in different countries, allowing them to learn various scientific methods and contribute to reports or publications alongside international experts.

*Highest international research stipend secured is 💰 **5.5 lacs**!*



# Active Placement Support

Dedicated Placement Cell: Tensor School has an active placements team, that focuses on ensuring students have access, support, and guidance that is required to reach their dream careers.

Recruiting Network: We maintain “Talent Club” a dedicated community for HR professionals, that gives us unfair advantage in the hiring .

1:1 mentorship: we ensure each student gets personalized guidance to achieve their individual career goals.

*We take a lot of pride in helping our students get real world work experience right from* ***day 01.***

# Campus and **Infrastructure**

### *Modern Amenities*

Our unique 100-acre campus sits directly inside a Tech Park, placing students at the heart of the industry ecosystem. We ensure a seamless experience with smart classrooms, campus-wide high-speed internet, and comfortable, modern hostels.

### *Sports & Recreation*

We balance intensity with wellness, featuring a cricket ground, basketball courts, a modern gym, and yoga spaces to help students recharge.

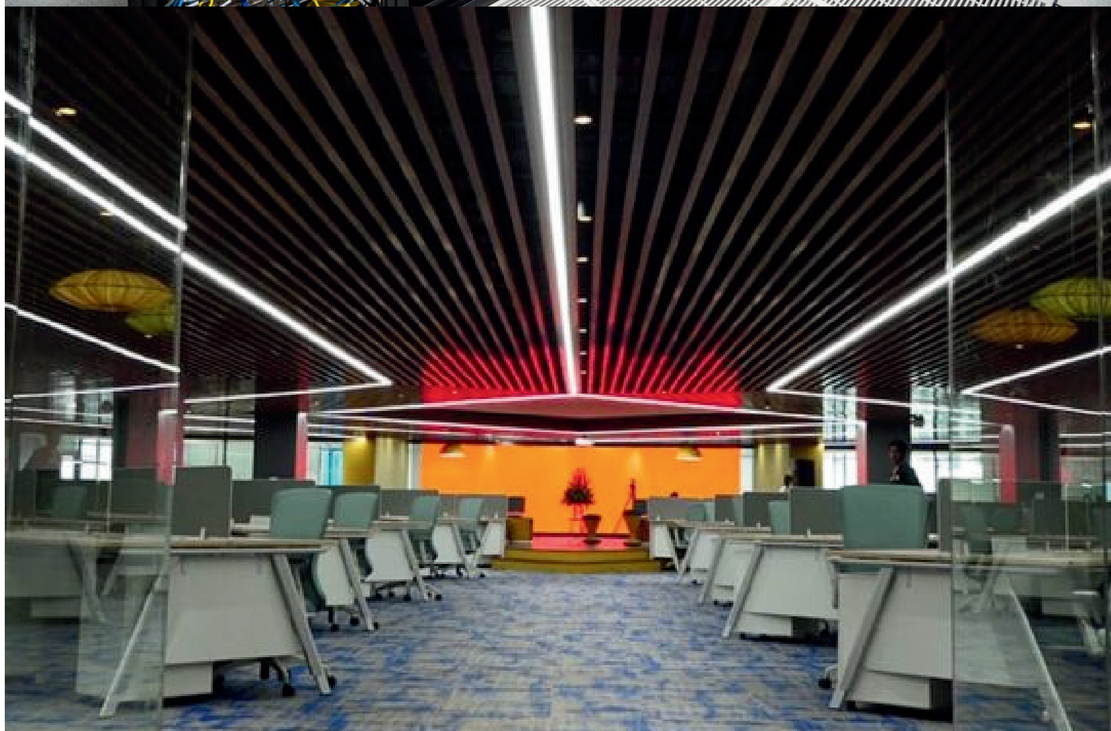
# World Class **AI Research Labs**

### AI Research Labs

At Tensor, students access world-class compute: high-performance GPU clusters, dedicated ML workstations, and fully equipped robotics labs.

### 24x7 Learning Spaces

At Tensor, learning never stops. We provide 24/7 access to a modern library, private study rooms, and open collaboration areas for round-the-clock innovation.



# Comfortable **Campus Hostels**

At Tensor, we offer dedicated, separate residential blocks for boys and girls, designed to provide a secure and conducive living environment. Every room is **fully air-conditioned** and well-furnished, supported by **24x7 professional security** and surveillance. We ensure a hassle-free '**home away from home**' where students can focus entirely on their academic and personal growth.

# Admission pathways

| | | |
|---|---|---|
| **STEP 1** | **Apply** | **Apply & Choose your pathway.** |
| **STEP 2** | **Assessment** | **Clear TSAT / Coding Test / Portfolio Review** |
| **STEP 3** | **Interview** | **45-min personal interview with faculty.** |
| **STEP 4** | **Decision** | **Admission + Scholarship offer within 7 days.** |

## Direct Interview criteria ⚡

- JEE Advanced : (Rank < 20k Direct Consideration)
- JEE Mains : (Rank < 50k Fast-Track)
- TSAT (Tensor SAT) : Our comprehensive entrance exam.
- Profile-Based : Portfolio & Project evaluation.
- Tensor Coding Test For competitive programmers.
- Olympiads : International medalists get direct admission.
- IAT & CUET : Top percentile scores accepted.

# Fee Structure

An investment with 4x returns! ⚡

Tensor School has a Semester Fee of 2L per semester. This fee includes MacBook Pro (₹1.5L), CodeCanva Access, 1:1 Mentorship, and Placement Support.

| | |
|---|---|
| **Your Investment** | **2L per semester** |
| **Your Return** | **₹25L Average Starting Salary** |
| **Your Edge** | **Earn ₹5-8L via internships during the course.** |
| **Break-even** | **Typically achieved within 8-12 months of graduation** |

# Includes

- **Apple Macbook Pro**
- **AI Research Credits**
- **1:1 Mentorship**
- **Dedicated Placement Support**
- **International Research Support**
- **Access to Startup Fund**

# Scholarships 🎓

**JEE Advanced & Mains:** Scholarships awarded based on qualifying status, superior percentiles, and high All India Ranks.

**BITSAT:** Applicable for candidates achieving high aggregate scores in the admission test.

**Computer Olympiads (IOITC, INOI, ZCO/ZIO):** Special recognition for national finalists and qualified participants in elite programming competitions.

**Other National Exams (IAT, CUET-UG):** Scholarships awarded based on qualifying status, superior percentiles, and high All India Ranks.

**Merit-based waivers:** for top performers in premier national aptitude tests.

**State Entrance Exams (EAMCET, COMEDK, MHT-CET):** Applicable to top rankers in respective state-level engineering entrance tests.

**Class 12 Boards:** Exclusive scholarships reserved for the top rank holders from each state board.
